## La-may Face Powder is Guaranteed Pure and Harmless.

Pure face powder cannot injure the most delicate baby skin. The trouble is, too many powders are made in the old fashioned way, with rice powder. Rice powder is starchy, and, like bread flour, it is quickly turned into a gluey paste by the moisture of the skin. This paste clogs the cuticle, swells in the pores, causing enlarged pores, blackheads and pimples. A specialist makes a harmless powder by using an ingredient doctors prescribe to heal the skin. Every time you apply this improved powder you give your complexion a real beauty

treatment. There is a thousand dollar guarantee of purity printed on the box, certifying it does not contain white lead, rice powder or any harmful substance. This guaranteed pure powder is called La-may (French, Poudre L'Amé). Because it is pure and harmless La-may is now used by over a million American women; it is now the most popular complexion powder sold in New York. Women who have used even the most expensive face powders say La-may stays on better than any other; they say they can not buy a better powder anywhere at any price. There is also a La-may Talcum that prevents the souring of perspiration.
